NEGRO ATTACKS A YOUNG GIRL.

Jessie Hemphill Seized On Street
In Broad Daylight By Bud
Richardson Friday.

DIFFICULTY TO PREVENT MOB.

Friday about noon Miss Jessie Hemphill, the 13 year old daughter of Mr. and Mrs. John Hemphill, was attacked by Richardson, a negro boy. Miss Hemphill was on her way home from the Breckinridge Graded School and she was in Eastland near her home when Richardson grabbed her and put his arms around her neck. The girl aroused the neighborhood by her screams and frightened the negro away.

Richardson was caught and arrested by Marshall O. DeHaven. He was examined in the police court Saturday afternoon and Judge Wills fixed his bond at \$300. The negro could not give bond and was taken to Hardinsburg to be placed in the county jail. The case was continued until yesterday.

The people of Cloverport are greatly incensed at the outrage and there was difficulty in keeping down a mob Friday night and Saturday afternoon.

Miss Hemphill is a beautiful girl of modest and gentle manner. The insult almost prostrated her with fright. It is said, that Richardson had scared her several times by speaking to her impertinently.

KENTUCKY REPUBLICANS' PLATFORM.

The Republicans of Kentucky, in convention assembled, hereby declare:

We congratulate the citizens of Kentucky upon the election of Augustus E. Willson as Governor and approve his efforts, under great difficulties, to restore law and order throughout the State.

We reaffirm the declaration of principles adopted by the last Republican State Convention and assure the people of Kentucky that the State Administration has labored faithfully and earnestly to crystallize those principles into written law, and that it will continue to do so.

We approve and applaud the splendid Administration of Theodore Roosevelt. He has raised the moral standard of all the departments of government to a higher plane than was ever before reached. Honesty, justice and the enforcement of law prevail as the principles of government.

We favor a sound financial system, a great navy, with speedy completion of the Panama Canal, and a just and generous policy toward our insular possessions.

We favor the revision of the tariff by a Congress which understands and believes in the principles of protection to American labor.

We favor a wise and just regulation of the public utilities which have become National public servants, and we oppose the dangerous and un-American doctrines of Government ownership of such utilities.

We stand for the policies which have made the present Administration great, and demand that these policies shall prevail and their objects be accomplished.

By natural gifts, by special training, by wide and uncommon experience, William H. Taft, of Ohio, is fitted for the office of President of the United States, and we instruct our delegates to the National Convention at Chicago to vote for him until he shall be nominated.

We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and to promote morality.

We congratulate the Republican party of the State of Kentucky upon the election to the United States Senate of the Hon. W. O. Bradley.

Frank M. Fisher, George DuRelle, Ludlow F. Petty, B. C. Edwards, A. D. James, J. E. Watterhouse, Morris C. Hutchens, John Marshall, John W. Lewis, L. F. Sinclair; John W. Langley, James Breathitt.

A BUSINESS VIEW OF CONSERVATION.

The conference of Governors of the States and Territories which President Roosevelt has called to meet at the White House on the thirteenth of this month will be an assembly unique alike in object and in constitution. Never before have the executive heads of all the Commonwealths of the Union met in Washington or elsewhere for any purpose, and never before has a conference representing every section of the country as this will, been officially called together for the purpose of arriving at a comprehensive program for the conservation of the national resources. Thus the conference will be an epoch-making event in a double sense and doubtless the proceedings of the sessions which will shortly open in the historic East Room, will be watched, as they should be, with the keenest interest by Americans of all degrees and sections. The scene should be worth commemorating when the Chief Executive of the world's greatest federation faces for the first time in history the Chief Executives of its forty-six constituent states, all met to consult together of ways of keeping for future Americans the heritage of natural resources, which has lifted America to her present place of wealth and power. There will be other distinguished men present, too, among them representatives of all the important national organizations of one kind and another, the welfare of which depends upon national resources.—American Inductuaries.

Don't envy the rich, they have their troubles just like other people.

Speaker Cannon was seventy-two last Friday. The House adjourned for the day in honor of the grand old man.

Please bear in mind that we stop every paper when the time is out. No favorites, no dead-heads. Every man is given the square deal.

Marshal DeHaven deserves a whole lot of credit for dispelling the mob spirit here last week. To uphold the law at all hazards is what we need just now in Kentucky.

Judge Moorman is doing some excellent work in the court-house yard. He is making it a place of beauty and a joy for ever to all who have business at the county seat. We applaud the Judge's initiative.

The Postmaster General knew what he was doing when he inaugurated the cash system for subscriptions. It is the best thing that ever happened for the country weekly. The News is proud to say that it had adopted the system before it ever heard of the P. M.'s order.

Don't quarrel with Nature. If we would do our work half as well, things would be well with us. Now that the clouds have passed away, let us forget them, get out into the sunlight and put in our best efforts. With a light heart and a willing hand, prosperity, happiness and contentment will follow us.

Fine display of thoroughbred stallions at Hardinsburg Monday. Beard Bros., high stepper—the best bred horse in Kentucky—was there, with Green Bros., beautiful bay, as pretty as a picture, drew a large crowd on court-house square. Miss Carrie Beavin entertained the young people Saturday night with a party and all seemed to enjoy themselves.

The Right Man.

The Democratic committee of the Fourth district has met and named Mr. Ben Johnson for re-election to Congress at the coming convention.

Mr. Johnson is serving his first term in Congress and the Democratic party is fortunate in securing a man of his character and capacity for this service. Mr. Johnson is a Democrat of the strictest school. At the same time he is a man of high character and of liberal views. He brings to his public duties a knowledge of business needs, a thorough training as a business man and that party loyalty that seeks public confidence through laudable public service.

The longer a party can keep in Congress, a man of Mr. Johnson's character the better for the party and the better for the general interests of the public.—Louisville Evening Post.

Suppressed Night Riders.

PROGRAMME.

From the Jessamine News.

Probably the following story, related by a farmer who was here yesterday Monday, represents the sentiment of the "night riders" operations in this county thus far.

This farmer states that his peasant neighbor had planned to raise a small crop this year for home consumption only.

This farmer is the father of two boys, aged 11 and 13, years, upon whom he was relying to cultivate this crop. The boys did not enter into this part of the programme with the best of spirits and planned to scare "the old man." Accordingly one day they cut a lot of limber switches and that night laid them at the front door of the home. On the door they tacked this sign:

"Old Man: If you raise any tobacco this year there will be I raised here. 'Night Riders.'

From a window in the kitchen the father watched the operations of the boys and when they retired and were fast asleep dreaming of the happy days they would spend with him and his wife, he stole the creel and instead of耻ing the switches and on the seats of their pants was attached the following sign:

"Night Riders: Meet me at the barn at 7 o'clock in the morning, when I raise will begin."

"Old Man."

The appointment was kept and it caused the mother to devote half a day to patch up the two seats of pants, while nature is still at work patching up two other seats. The man who tells this story and who lives not far from town, says that the tobacco bed is the pride of the neighborhood.

DEATH ENTERS DR. SUTTON'S HOME.

Takes His Beloved Wife Who Was Charter Member of Hardinsburg Baptist Church.

WAS A TRUE FRIEND.

Hardinburg, Ky., May 12.—"Special"—Mrs. Sallie C. Sutton, wife of Dr. S. C. Sutton, age 85 years, died Sunday, May 8, at her home in Hardinsburg.

She was born near Whitesville in Ohio County, married in 1870, and came to Hardinsburg with her companion twenty-seven years ago. She was converted at the age of 14 years and joined the Panther Creek Baptist Church.

The Hardinsburg Baptist Church was organized in 1887 she was one of the charter members.

Mrs. Sutton was a devout, active and useful Christian; a lover of peace and harmony and would work anywhere, at any time with any others. She was devoted, faithful and loyal to her church. Her many friends to whom she was kind and true will miss her from her place of business.

She left a lonely and heart broken companion, a devoted and sorrowing son, Estill Sutton of Louisville; and an uncle, Harry Haines, of Whitesville, who reared her, and some half-sisters and brothers. To these we extend our tenderest sympathy.

Life's race well run,
Life's work well done,
Life's crown well won,
Now comes rest.

The Experience of A Poultry Dealer.

Only in recent years has poultry keeping taken a place among recognized industries. Many of the successful poultry men of to-day were not experts when they began, but had to learn by experience.

"In regard to Sloan's Liniment for poultry diseases," writes E. R. Spaulding, Jaffrey, N. H., "a disease called roup is one of the greatest drawbacks in raising poultry. It is somewhat similar to distemper in a horse. After trying and experimenting with about everything recommended, I found that Sloan's Liniment was the swiftest and surest remedy for roup, and I can especially recommend it for canker in the wind-pipe."

Send for Dr. Sloan's free book on Horses, Cattle, Hogs and Poultry. Address: Dr. Earl S. Sloan, 615 Albany Boston, Mass.

DIRT ROAD BUILDING

Practically Only Three Tools Are Needed.

GRADER, HARROW AND DRAG.

How Dragging Has Benefited the Highways in an Illinois County. Method of Making a Foundation For Good Earth Roads.

The people in Wabash county, Ill., are becoming actively enthusiastic in the matter of good country roads of native earth. This is especially so in the communities of the Atlantic, Ill., and generally in all over the county and adjoining counties. When the work was first started about four years ago, few people had any faith in results, and fewer still took any part in the work. But now, few are left who do not believe in the value of dragging, and winter roads rain or shine, muddy or dry, till now almost everybody believes in road dragging, and a very large number turn out with teams for work every few days says Hiram C. Shepard, an exceedingly thorough test is being made of the native earth to see what can be done. Although all are constructed on the same general principles, yet many different kinds of road drags have been invented, and the various methods tested. Most of them are constructed of 3 by 10 inch timbers from eight to ten feet long and require two teams for dragging them. Some have steel cutting blades, and some have not; some have spade spades, and some have drag hoes, and others have solid, smooth bottoms. They have found so far that the drags with solid bottoms are best for soft, muddy roads, while those with open spaces between the timbers are best for dry roads or for use just after a hard frost.

Bad Attack of Dysentery Cured.
An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Coll. Cholera and Diarrhea Remedy, he felt confident of being cured, he having used this remedy in the West. He was told that I kept it in stock and lost no time in obtaining it and was promptly cured," says M. J. Leach, druggist, of Weymouth, Vt. For sale by Severs Drug Co.

Prizes For Good Highways.
At a recent meeting of the Good Roads Association for the country in Maryland, it was decided to offer awards for good roads. Prizes aggregating \$300 will be given where the split log drag is used: First, \$100 for best improved mile of road; second, \$50 and \$20 respectively. A prize of \$25 will be paid for the best improved half mile of road on each of the rural routes originating in Eastern. Other prizes will be \$15, \$10 and \$5.

There are practically only three tools necessary for making and maintaining good natural earth roads. They are the road grader, harrow and road drag. Road grader, two men to \$300 each, according to size and style. Harrows are on all farms, and the cost is reasonably low, while the road drag is so very simple of construction that almost any one can make one himself. For a road drag to do effective work, it is necessary that it be so heavy that two teams will be required. One team is hitched at either end of the drag, and when driven one team is made to go ahead, the other so that the drag moves forward at a uniform rate of forty feet a minute toward the center of the road, thus forcing the surface earth always to the center, making the road rooflike, which allows surface water to escape. On the front timber a steel cutting blade is attached so as to project about half an inch. The cutting blade is not particularly necessary for real muddy roads, but it does effective work when the soil is dry.

A Happy Father
is soon turned to a sad one if he has to walk the floor every night with a crying baby. McGee's Baby Elixir will take the child well—soothes its nerves, induce healthy, normal slumber. Best for disturbed bowels and sour stomach—eases teething babies need it. Pleasant to take, sure and safe, contains no harmful drugs. Price 25 and 50 cents per bottle. Sold by A. R. Fisher.

Keeps Him Hustling.

"Heaven help us," says a Georgia philosopher. "We're getting rid of the world, the flesh and the devil, and it's the devil that keeps us hustling for high-water!"—Atlanta Constitution.

Dysentery is a serious ailment. Burdock Root bitters is the national cure for it. It strengthens stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

HOW TO HAVE GOOD ROADS.
Jersey Farmer Suggests a Scheme to Avoid Getting Ruts.

A farmer of Franklin, N. J., writes as follows to the editor of the New York Evening Telegram:

I would like to call the attention of road masters and automobile drivers to the following suggestion: If you will put a post on the roadside, in a very short order, Compliance with the posted request on the roads mentioned will keep them smooth throughout their entire length and breadth and a delight to all who travel on them.

Union Avenue in this town of Franklin is a favorite with motorists, and if the Long Island rule were posted and obeyed it would be a fine thoroughfare. Instead it consists of two long ruts of from one to six inches in depth, which require constant attention and repair.

The Underdog.

Underdogism does not arise wholly

from condition (you find underdogs in the very strongest families), but from the lowly quality of mind which is inherent.

You may know the underdog by a certain negative attitude, an absence of assertion, a denial of superiority, a smiling air of seeing the humor of the situation, a droll hint of a wink and a smile.

It is a common fault of many that follow a continual mental strain. They have given for all that is claimed.

real grading can be done with the road drag's greatest efficiency is for roads in winter when they are wet and muddy or for leveling them in winter just after a dry frost. By driving the drag over the winter roads and depressions are filled easily and rapidly, the water being forced out so it can run away and the surface left smooth.

The common field harrow is also an excellent implement, and the results are increased each year. Best results are obtained by using the harrow when the roads are rough but dry. It then acts as a leveler, but not a grader, by raking off the clods leaving depressions to prevent the accumulation of surface water, which is the main cause of bad roads. Keeping the ruts and holes filled is the greater part of road maintenance. The harrow and the drag are the two best implements for doing it rapidly and cheaply.

The foundation for a good native earth country road is made by drawing the dirt to the center, leaving drain ditches on either side to carry off the water. This is the best way to do it, rapidly and cheaply.

The foundation for a good native earth country road is made by drawing the dirt to the center, leaving drain ditches on either side to carry off the water. This is the best way to do it, rapidly and cheaply.

The road ridging of native earth is the best way to do it. The road is drawn deeply and neatly only with an ordinary iron road grader, which acts as both plow and scraper of former times. The blade of the grader is set at an angle so that the earth at each furrow is pushed toward the center of the road. The blade of the grader, the long, sharp iron blade moves straight, leaving the surface hard and smooth. If maintained in the condition in which the grader leaves it, the road will remain dry, smooth and passable for a large part of the year.

Proper Care of Gravel Roads.

In order to maintain a gravel road in good condition it is well to keep piles of gravel alongside at frequent intervals, so that the persons who repair the road can get to it readily when it is not far for it. As soon as ruts or holes appear on the surface some of this good, fresh material should be added and stamped into position or kept raked smooth until properly consolidated.

A Living Skeleton

is the final condition of any child that has worms—if it lives. Think of having something in your stomach that eats all you take as nourishment. Nine-tenths of the babies have worms, maybe yours has. Be certain that it has not by giving it White's Cream Vermi-fuge—it expels all worms and is a tonic for the baby. Price 23 cents. Sold by A. R. Fisher.

No Joke.

Claire—Do you really and truly believe I'm a thousand times too good for you?

Wifred—Of course, I'd never think of marrying you if I didn't.—Kansas City Times.

For cuts, sprains, bruises, burns, insect bites, etc., see McLean's Vegetable Oil Liniment. First sold in 1852, still the same effective remedy in 1908. Good for man or beast. 25c, 50c, and \$1.00.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

It is the kidneys that filter the blood purifiers, they filter out the waste or impurities in the blood, then they filter out the water and salt of order, they fail to do their work.

Pains, aches and cramps come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-stuffed blood through the arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake in taking Dr. Kilmer's Swamp-Root, and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its powers to cure the most distressing cases and is sold on merit in fifty-cent and one-dollar sizes.

You may have a copy of the book "Home of Swamp-Root," and "Home of Dr. Kilmer's Swamp-Root," the great kidney remedy is soon realized. It stands the highest for its powers to cure the most distressing cases and is sold on merit in fifty-cent and one-dollar sizes.

Don't make any mistake but remember, home of Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y. is on every bottle.

The Fighting Chance.

first feared that he read in Seward's drawn and sullen face a premonition of the ever attended symptoms.

"Quarrier has telephones asking for a conference at last," he said abruptly, silent for a moment.

"Well," said Seward, "how do you interpret that—favorably?"

"I am inclined to think he is a bluenose," said Plank cautiously. "Harrington made a secret trip to Albany last week. It looks to me as though there were some reason to be a ghost of a chance for an investigation. Suppose I meet Quarrier?"

"All right. Did he suggest a date?"

"At this afternoon. I think," observed Plank, laying his half consumed cigar on the small tray. "Then I have to go downtown and see what our pre-gacial friend Quarrier wants. Seward, he is a bad man and crafty—every inch of him."

"Oh, come now! Only characters in fiction have no saving qualities. You never heard of anybody in real life being entirely bad."

"No, I didn't, and Quarrier isn't. For example, he is kind to valuable animals—I mean his own."

"Good to animals! The bad man's invincible characteristic!" laughed Seward. "I'm fond of 'em too. What else is there to do?"

"Everybody knows that he hasn't a poor relation left—not one. He is loyal to them in a rare way. He filled one subsidiary company full of them. It is known now as the 'Home For Desolate Nurses'."

"Seriously, Plank, the man must have something good in him."

"Because of your theory?"

"Yes, I believe that nobody is entirely bad. So do the great masters of fiction."

Plank said gravely: "He is a good son to them. That is perfectly true—kind, considerate, dutiful, loyal. The financial world is perfectly aware that Stanley Quarrier is today the most unscrupulous old scoundrel who ever crept into a man's life. He is a rascal, and his son no more be lieves it than he credits the scandalous history of the Red Woman of Wall street."

Seward had never before seen Plank aroused, and he was a smiling.

"That is true," said Plank earnestly. "I waste little time over my likes and dislikes. But what I know and what I legitimately infer concerning the younger Quarrier is enough to rouse any man's anger. I will tell you what I know. I can't tell you anything else. I have nothing to do with his financial methods, nothing to do with his business. But it is bad—bad all through! The blow his father struck at the integrity of the bunch the son strikes at the very keynotes of all social organization. I must tell you that. Take care of the ankle. Any books I can send you—anything you want? No? All right. And don't worry over Amalgamate Electric, for I really believe we are beginning to frighten them badly."

It was exactly 4 o'clock when Seward was in his law office's private suit in the great marble Algonquin Law and Trust building, the upper

FIFTEEN YEARS OF KEEN SUFFERING

Rheumatism Developed Burning, Painful Sores on Legs—Tortured Day and Night—Tried All Kinds of Remedies to No Avail—Wife Had Debility and Pains in Back.

BOTH USED CUTICURA AND ARE WELL AGAIN

"My husband had been a great sufferer with rheumatism for nearly fifteen years. At first it was in the flesh, but after a while it was in the bone, and then it would sometimes get into the legs, from below the knees to the ankles. There are no words to tell all the discomfort and pain it caused him to endure night and day. He used every kind of remedy and these physicians treated him, but he did not get out any good results whatever. So one day I happened to read about Cuticura Pills. I asked him if he would not try them. 'No,' said he, 'it's no use. I've spent enough money now on them to buy a cow. Five dollars' worth of Cuticura Ointment, and Cuticura Ointment, and Cuticura Ointment. He is a man of means, without a cent of income but after three weeks all the sores were dried up. The next day he was able to walk again, and the pain was bearable. After three months he was quite well. Two years later the rheumatism was gone, and so was the debility and some care. I am glad he is working hard and had taken cold. But as soon as he got well he got rheumatism again. Two years ago I used Cuticura Pills for general debility. They did me a great deal of good, and now as the rheumatism is gone I had pains in my back and Cuticura took them away, too. I am sure that I am a testimonial at any time." Mrs. V. A. Albert, Upper Frenchville, Me., July 21, 1907."

A Single Treatment

Consisting of a warm bath with Cuticura Soap, a gentle application of Cuticura Ointment, and a mild dose of Cuticura Pills. Cuticura is often sufficient to afford instant relief, permit rest and sleep, and point to a speedy cure. It is especially useful in rashes, itchings, irritations, and inflammations of the skin and scalp, from infestation with all kinds of lice. This woman says that sleek women should not fail to try Lydia E. Pinkham's Vegetable Compound as she did.

Mrs. A. Gray, of 2355 Lawrence St., Denver, Colo., writes to Mrs. Pinkham:

"I was practically an invalid for six years, on account of severe trouble with my heart, and was compelled to give up my occupation as a doctor's nurse. Lydia E. Pinkham's Vegetable Compound has restored me to health, such as I have not enjoyed in many years. Any woman suffering as I did with backache, bearing-down pains, periodical pains, should not fail to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodical pains, bearing-down pains, bearing-down pains, indigestion, diarrhea, and nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Out Only Ten Minutes.

In the case of the Commonwealth against Z. T. Cox tried at Brandon on Tuesday and Wednesday, the jury was out just ten minutes, came in with a verdict of not guilty. There were 75 or 100 witnesses in the case and a great deal of feeling had been worked up in the matter. Mr. Cox and his friends are very much elated over their victory.

There is a Pink Pain Tablet made by Dr. Shoop, that will positively stop any pain, anywhere, in 20 minutes. Drugists everywhere sell them as Dr. Shoop's Headache Tablets, but they stop other pains as easily as headache. Dr. Shoop's Pink Pain Tablets simply coax blood pressure away from pain centers—that is all. Pain comes from blood pressure—congestion. Stop that pressure with Dr. Shoop's Headache Tablets and pain is instantly gone. 20 Tablets 25¢. Sold by all dealers.

HOW TO MAKE GOOD ROADS.

Suggestions by State Engineer Cooley of Minnesota.

State Engineer George W. Cooley of Minnesota, who recently discussed macadam roads with the members of the road and bridge committee of the county board, also discussed the specifications for Ramsey county road work and gave the members of the committee a good deal of information. Mr. Cooley spoke of the growing popularity of macadam roads in the eastern states, where the best roads that money can procure are demanded. His opinion was that a good earth road is the best that can be had, but they are hard to lay in regular, whereas macadam roads may be easily made. Scientific methods should be adopted, and specifications must be carried out to the letter.

In building a macadam road the contractor is the master and the engineer is the slave. The tools in the usual macadam limestone foundry should be tightly filled with gravel instead of clay, which is sometimes used. A very little clay may be used, but for filling purposes gravel is much more satisfactory. There should be no stones in the soil of the road, but the macadam should be gradually feathered off to the edge and made water tight. The material used for a filler should be applied before the road is rolled. On top of a foundation of four inches of crushed limestone an inch of macadam should be laid, and the gravel in a street sprinker and then roll. The next layer should consist of three inches of smaller hard stone treated in the same way and then a layer of pit gravel feathered off to the edge.

Mr. Cooley said all the materials should be specified and nothing left to the choice of the contractor. Even the gravel pit should be designated. The contract should be so worded that in the event that the gravel pit designated failed to produce the required way the contractor can be required to go elsewhere for this supply upon making an equitable adjustment with him. Such an arrangement would be far more economical than to permit the contractor to go on with unsatisfactory material. In this way the board could control the sources of supply and nothing would be left to the whim of the contractor.

Mr. Cooley also went into the question of maintenance of roads, which he considered quite as important as construction. The contractor, he said, should be required to keep a road in the condition of which it was left on the completion to look out for defects.

Faithful Rural Mail Carrier.
With the unique record of not having missed a day from his route, except the holidays granted by the government, Howard M. Weaver of Waynesboro, Virginia, runs his carrier route completed in three years in the service. Weaver was among the original force of carriers, who began their duties Feb. 1, 1905, and is the only one who remains. During the quarter ending Dec. 30 last Mr. Weaver handled 17,500 pieces of mail, and is the only man, as in his first quarter, Mr. Weaver enjoys his daily ride through the March district and has made many firm friends there. There is rarely a party or dinner in that section that he does not attend, and there is frequently rolling for him on cold days a cup of hot coffee.

Tired nerves, with that "no ambition" feeling, that is peculiarly felt in spring and early summer, can be easily and quickly altered by taking what is known to drugists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter time, the circulation often slows up, the kidneys are inactive, and even the heart in many cases grows decidedly weaker. Dr. Shoop's Restorative is recognized everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn-out, weakened nerves; it sharpens the failing appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor and ambition. Try it and be convinced. Sold by all dealers.

Important Notice.

Do not ask us to print cards of obituaries or resolutions free of charge. The price is 5 cents per line, and any article or local in the way of an advertisement, can be published for not less than the regular price. Card Of Thanks.

I take this method to extend my thanks to my many friends and former neighbors of McDaniels and vicinity for their many acts of kindness and expressions of sympathy during my dark hours of affliction over the loss of my beloved son, Morton. I especially thank the Rev. Father Knu, of St. Anthony's Catholic church, for his services so kindly rendered both at the church and the cemetery. Words are inadequate to express my gratefulness towards all, and I can but assure them that all that has been so generously extended to me is fully appreciated and each deed and word shall forever remain a cherished memory to me.

Very sincerely,

The Most Common Cause of Suffering.

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Pain Balm will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary, becomes permanent, while in old people subject to chronic rheumatism, often brought on by dampness or change in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone with many times its cost. 25 and 50 cent sizes for sale by Severs Drug Co.

DAVIES COUNTY BANK

MAKES ASSIGNMENT.

By reason of poor collections and lack of sufficient cash to carry on its business, the Davies County Bank and Trust Company made an assignment Thursday.

Several people in Breckinridge County have lost money in the two Owensboro bank failures. It is said, Mrs. Roberts, of Stephensport, lost about \$10,000. Mr. Colin Miller, of Cloverport, lost several hundred dollars.

FORECAST OF FASHION.

To Make Over Last Season's Hat.

A woman who is quite deaf at making her own hats has taken off the last season's wire and wired it lightly around the edge of the brim. This sis has bound with pale blue silk, and with deaf fingers she has wound up ten ends, all slightly rolling in shape. Around the crown she has set a double wreath of little pink button roses, and at the base she has set a big bow of blue velvet with wide ends just failing over the edge. This is nothing but this method of trimming which could not be copied by any woman who desired to trim her own hat.

CASE AFTER CASE.

Plenty More Like This in Cloverport.

Scores of Cloverport people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

John Armstrong, living on Locust St., Cloverport, Ky., says: "I had been practically an invalid from kidney trouble for many years and was scarcely able to arise from my bed for weeks at a time. No tongue can describe the agony I endured from backache and at times I was in such a severe condition from this complaint. My limbs were swollen to nearly twice their natural size and my eyesight was becoming affected. The kidney secretions were irregular in action and I soon attained a sentiment and were highly colored. I had been to Louisville and in other cities, but gradually became worse until finally heard about Doan's Kidney Pills and procured a supply at Fisher's drug store. After using them for a short time I felt a great improvement and I am now as strong and healthy as a man could possibly be. It gives me pleasure to recommend Doan's Kidney Pills."

Dr. and Mrs. Wayne arrived here Wednesday evening from Columbus, Ky., to visit their parents, Mr. and Mrs. Jess Drinkwater.

Mrs. W. S. Avery has been very sick this week but is improving.

Messrs. Curt Ryan, Webster Taylor and G. W. Winchell went to Louisville Sunday with a drove of hogs.

Alex Ahi and Webster Taylor were in Campbell Saturday.

The directors of the Tobinsport Telephone Co., held a business meeting Saturday afternoon.

Marion Polk was nominated by the Republican party Saturday for trustee.

Miss Eada Parrish left Saturday for Danville to attend school.

J. D. Cockrell left Saturday for Owensboro on business.

The children of the M. E. church are rehearsing for Childrens Day exercises.

A specific for pain—Dr. Thomas' Electric Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

Harold Murray is the first young man to be graduated from the Cloverport High School for years, and he should be greeted by a large audience Friday evening.

Committee Appointed

Chas. Miller, John Long and Mr. Stern were here from Louisville Monday in the interest of installing water works and electric lights for Cloverport. A committee was appointed to further investigate the matter and to see what arrangements can be made with them to furnish the city with these conveniences.

Successful Farmer.

Charlie Dean, of Glendale, one of our most progressive young farmers, was in Louisville last week. Mr. Dean employs 15 or 20 men on his farm, one of the best in the county. He expects to put in 25 or 30 acres of tobacco this season. Mr. Dean farms because he likes it, is in love with the business. He gives it his personal attention, looks after every detail of his farm just as any merchant or manufacturer does. God, it seems he has made money, makes it every day and holds his place in fine shape. Mr. Dean says: "I pays to conduct a farm sympathetically, use the best tools and machinery which pay and bring results."

Farmer's Bulletins.

The Kentucky Agricultural Experiment Station of the State College, Lexington, has just issued bulletins No's., 132-133, on commercial fertilizers and spraying apple trees. Better send and get these bulletins and study them. A postal card addressed to the station will bring them. They are valuable. Every farmer and gardener should have them.

Taking No Chances.

An English visitor to Carnoustie summer was one day starting a match when his candle asked to see his cigarette case and when it was handed to him coolly put it in his pocket. The visitor was astonished. The candle responded: "It's a' richt, sir. I'll gie it back to ye after the round. Ye see, I've gotten haur a croon on ye, an' I dinnae mean ye to smoke till ye win! Gang on. I'll take care o' ye a' richt."

MARRIED QUIETLY

Miss Annie Tydings and Mr. Thos Beard United in Matrimony At Louisville.

The wedding of Miss Annie Tydings and Mr. Thos. S. Beard was quietly solemnized yesterday afternoon at the Broadway Methodist church. The Rev. Alonso Monk, pastor of the church, officiated. The wedding was a surprise to the friends of both Miss Tydings and Mr. Beard, there having been an announcement. Only a few friends were present. Immediately after the ceremony Mr. and Mrs. Beard left for Bardstown, where Mr. Beard, who for years has been connected with the Louisville newspaper, will stay in Bardstown and later return to Louisville.

Miss Tydings is the daughter of Dr. J. M. Tydings, of 903 East Broadway, Mr. Beard's son, Thomas W. Beard, one of the best known athletes in the State, was recently recommended for appointment to a second lieutenancy in the United States army by Congressman Swager Shuey. While in Bardstown Mr. and Mrs. Beard made their home with their daughters, Catharine, former custodian of the Customhouse in Louisville, Courier Journal.

MAY FIRES.

Ancient Scotch Custom Which Involved Human Sacrifice.

St. John Sinclair's "Statistical Account of Scotland" contains notices of many curious customs which were to be observed in the Highlands, though they were even then fast dying out. From the eleventh volume of that great work, which was published in 1791, and the succeeding years, we learn the authority of the author of Calton Hill, that the boys of the township assembled in a body upon the moors on May day and proceeded to dig a circular trench, leaving the soil in the center undisturbed, so as to form a low table of green turf sufficient in size to accommodate the whole party.

They lighted a fire and prepared a sauté of milk and eggs and a large oatmeal cake, which they baked upon a stone placed in the embers. When they had eaten, the boys, who were dressed one in black and one in white, drew one毫不足夠

of the bonnet being entitled to the last piece.

The boy who drew the blackened portion was destined to be sacrificed and was compelled to leap three times through the flames.

Although the ceremony had degenerated into a mere pastime for boys, it is evident that it must once upon a time have involved the actual sacrifice of a human being in order to render the coming summer fruitful—Gentleman's Magazine.

A QUICK TOUCH.

She Needed Money and Sent a Message That Would Fetch It.

A day or two ago a woman entered a suburban telegraph office and said to the receiver of messages that she desired to speak to a man named John who was away in the country, to ask him for money. He pointed her to the counter supplied with blanks and told her the rate for a dozen words. She struggled away for a quarter of an hour and then handed in the following:

"Won't you please send me \$5 by next post?"

"I don't know whether that will do or not," she said as she held her purse to receive to receive such a telegram from your wife would you do?"

"Well, well, I might," he replied in doubtful tones.

"Now, you wait. I don't like the telegram at all, because I tried to keep it in twelve words. I'll write another."

She tore it up, walked over to the counter and in three minutes handed in a new one reading:

"Send out of food and fuel want as soon as you can get it here. If you can't spare it I'll pawn the parlor carpet."

"That would bring the money from me," said the counter clerk he read the lines and marked the number of a post office box.

"Then it will from him. Send it quick."—London Times.

Investigating Grandpa.

A grandfather, well known in the English home of commons, was chattering amicably with his little grand daughter, who was snugly ensconced on his knee.

"What makes your hair so white, grandpa?" the little miss queried.

"I am an old man, dear; I was in the war," replied his lordship, with a painful disregard of the truth.

"Oh, you Noah?"

"Are you them, then?"

"No, I am not them."

"Then you him?"

"No."

"Then?" said the little one, who was fast nearing the limit of her Biblical knowledge, "you must be Japheth."

A negative reply was given to this question, and for the old gentleman considerably wondered what the outcome would be.

"But, grandpa, if you are not Noah or Shem or Ham or Japheth you must be a beast!"

BROKE UP THE ARMY.

A Mean Trick That Demoralized the Haitian Troops.

When not fighting or drinking the Haitian negro spends his time loitering in the sun, smoking, gambling, singing, retelling all over the island the roads made originally by the Spanish and French have fallen into ruin, and the thick forests in the interior are populated by depraved savages.

John Armstrong, living on Locust St., Cloverport, Ky., says: "I had been practically an invalid from kidney trouble for many years and was scarcely able to arise from my bed for weeks at a time. No tongue can describe the agony I endured from backache and at times I was in such a severe condition from this complaint. My limbs were swollen to nearly twice their natural size and my eyesight was becoming affected. The kidney secretions were irregular in action and I soon attained a sentiment and were highly colored. I had been to Louisville and in other cities, but gradually became worse until finally heard about Doan's Kidney Pills and procured a supply at Fisher's drug store. After using them for a short time I felt a great improvement and I am now as strong and healthy as a man could possibly be. It gives me pleasure to recommend Doan's Kidney Pills."

BLACK FOREST CUSTOMS.

Young Son Inherits Property and Cares for Old Folks.

The peasant farms of the Black forest are handed down from father to son in a direct line, often dating back 400 years.

There is no division as in France. All falls to the heir, only here it is not the eldest, but the youngest son, who inherits. It is rare that a bar (peasants) dies as reigning head. When he goes, his son, who is his successor in office, ends his days in the hedgehog's house (dower house), which stands beside eachhof (steading).

That he does so in favor of his youngest son is very sensible. Were it the elder he would have no peace, to induce his parents to retire just at an age when power is sweetest and best exercised. For this reason the practical farmers of bygone generations decided to hand over the success of their farms to the youngest son when the father died, since when the eldest son would be left with a wife to care for.

WHEN FASTING IS FATAL.

Loss of Weight Below a Certain Point Brings Death.

During a long fast the daily loss of weight in the small smooth human being reaches death. All over the island the roads made originally by the Spanish and French have fallen into ruin, and the thick forests in the interior are populated by depraved savages.

HAD CATARRH THIRTY YEARS.

CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

"I have used several bottles of Pe-Ru-Na and I feel greatly benefited thereby from my catarrh of the head. I am encouraged to believe that it will be fully longer I can use it.

"I use it for thirty years standing."—David Meekison.

OTHER REMARKABLE CURES.

Mr. Jacob L. Davis, Gainesville, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Pe-Ru-Na I am cured." Mr. F. E. Kidd, well-known architect, 3477 Jefferson Ave., Chicago, Ill., writes: "I had catarrh over half of my life. I tried nearly every catarrh remedy advertised, beside a great many physicians' treatments, all of which failed. I had read of Pe-Ru-Na and decided to try it. I have taken seven bottles and am well again."

A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, R. F. D. No. 3, Shelby, Illinois, writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had a run of typhoid fever, was very delirious. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that it had catarrh of the stomach. I had a severe attack of the disease and was very ill for a week. Finally I was cured of it.
